What is Iowa Automotive Recyclers (IAR)?

IAR is a non-profit trade association of businesses involved in the recovery and sale of green recycled parts from automobiles and those who support the automotive salvage and dismantling industry.

Strength in Numbers

IAR membership means fellowship with other automotive recyclers by exchanging ideas and promoting good business practices. Through the thinking and action of its members, the *Iowa Automotive Recyclers* work to build the image of automotive recyclers. IAR enables members to get involved and accomplish collectively what none of us could do individually. Its strength lies in attracting members for the purpose of creating a pool of resources from which to draw ideas, energies, and finances.

Iowa Certified Automotive Recyclers Automotive (I-CARE) Program

The Iowa Certified Automotive Recyclers Environmental Program is the industry standard of excellence that exemplified the Iowa Automotive Recyclers membership. The I-CARE Program is uniquely Iowan in that it includes all state and federal regulation applicable to an Iowa automotive salvage facility. The Iowa DNR staff praised the I-CARE program and the industry for being proactive in waste management and compliance.

The goal is all Iowa Automotive Recycler members achieving and maintaining full compliance in safety, environmental and licensing regulations through the I-CARE certification program. I-CARE is an affiliate program of the national ARA Certified Auto Recyclers (CAR).
