## What is Iowa Automotive Recyclers (IAR)?

IAR is a non-profit trade association of businesses involved in the recovery and sale of green recycled parts from automobiles and those who support the automotive salvage and dismantling industry.

## Strength in Numbers

IAR membership means fellowship with other automotive recyclers by exchanging ideas and promoting good business practices. Through the thinking and action of its members, the Iowa Automotive Recyclers work to build the image of automotive recyclers. IAR enables members to get involved and accomplish collectively what none of us could do individually. Its strength lies in attracting members for the purpose of creating a pool of resources from which to draw ideas, energies, and finances.

## Iowa Certified Automotive Recyclers Environmental (I-CARE) Program

The Iowa Certified Automotive Recyclers Environmental Program is the industry standard of excellence that exemplifies the Iowa Automotive Recyclers membership. The I-CARE Program is uniquely Iowan in that it includes all state and federal regulation applicable to an Iowa automotive salvage facility. The Iowa DNR staff praised the I-CARE program and the industry for being proactive in waste management and compliance.

The goal is all Iowa Automotive Recycler members achieving and maintaining full compliance in safety, environmental and licensing regulations through the I-CARE certification program. I-CARE is an affiliate program of the national ARA Certified Auto Recyclers (CAR).

## **In Remembrance**

### **Dale Swift**

Dale Swift's father started Swift Auto Parts in the 1940's. Dale purchased the business from Grandpa Orrie Swift in 1976. Swift Auto Parts at 1720 East Washington, Des Moines, Iowa has been in the same location since 1963.

Dale started out as a pressman at Frye Manufacturing in Des Moines and also at Computer Papers in Des Moines. Although he always worked part time for Swift's cutting up cars for the frames and scrapping various metals. When Orrie Swift offered the business to his kids for sale, Dale was the one who came up with the money to buy Swift Auto Parts. That was the start of his legacy that inspired his children to work in the auto salvage business too. Mike & Steven own and operate Trail's End Auto & Truck Salvage and Susan & Wendy continue to work with Dale's wife Gretchen at Swifts.

Dale continued to work in the business up to the last few weeks before he passed away on October 16th, 2010. He was 72 years old and he loved Auto Recycling! He loved the game and he always enjoyed all of the Iowa Auto Recyclers family.

### **Wayne Smith**

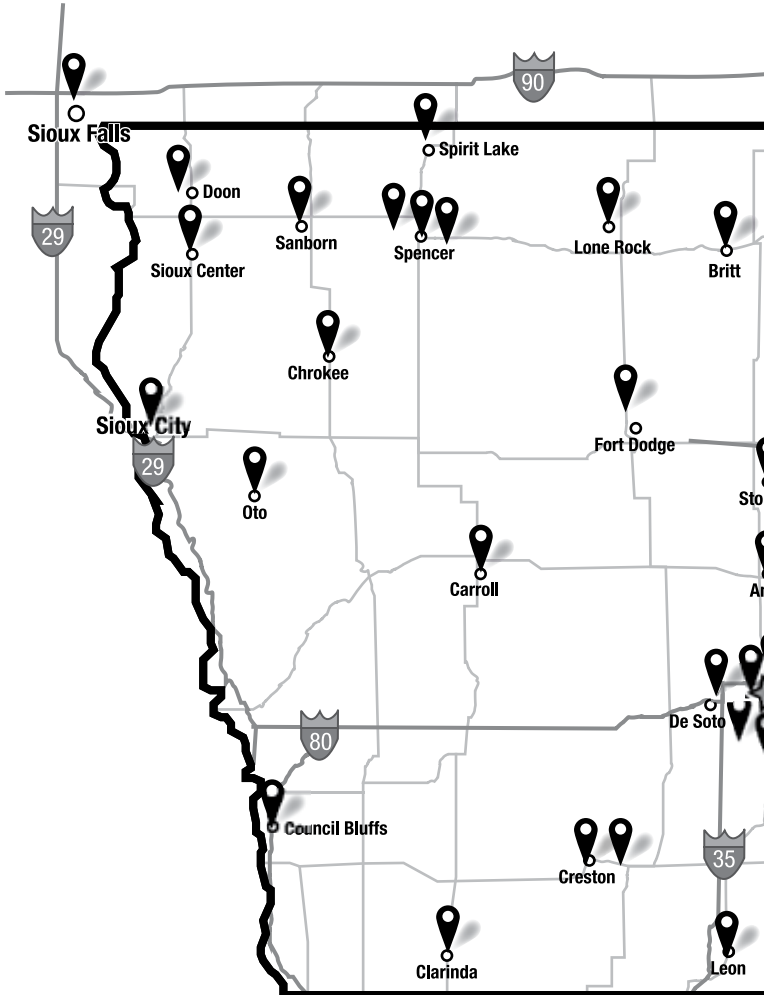

Wayne Smith owned and operated Smith Auto Parts & Sales, Inc. since 1969, located at 3205 West Grimes, Fairfield, Iowa. Wayne started out in 1959 as Wayne's Body & Fender. Later he moved to the current site and ran both businesses until he focused on auto salvage full time. Although he always remained open to any type of work that could make a buck!

Wayne enjoyed the yard and the recycling business working along side his son, Tim, most days and his Granddaughter, Lani, every day! He loved the automotive world and it was good to him.

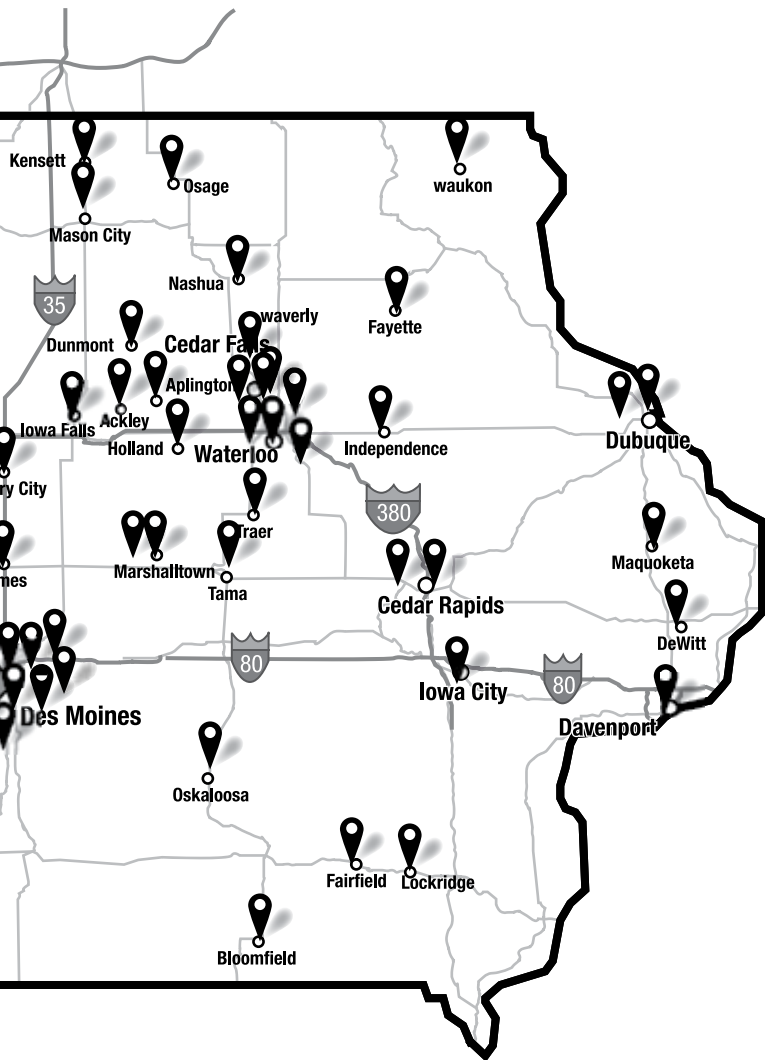

Wayne loved his growing family and he enjoyed hunting and fishing. He passed away on June 1, 2011 at 87 years old.
