Electric and Hybrid Vehicle Safe Handling Training

High voltage vehicles carry a high level of risk, this training teaches how to handle these vehicles correctly and safely and maximize the value from these vehicles whilst reducing risk.

This training focuses on the tools, PPE and processes required to make an electric or hybrid vehicle safe and how to remove the high voltage battery.

Electric Vehicle Expert **Andy Latham**, Accredited by CIWM (Chartered Institute of Waste Management) will provide this unique training designed specifically for vehicle dismantlers.

Target Audience

Vehicle Dismantlers and Recyclers, team leaders and supervisors, vehicle inspectors/assessors.

Learning outcomes/Course Objectives

- Understand electric and hybrid vehicle operation
- Know where to locate technical details and information on electric and hybrid vehicles
- Understand safety equipment (PPE) and tools, and safe and correct use
- Understand what to do in the event of an emergency situation (fire, electrolyte leakage or electric shock)
- Show best practice when working with these vehicles, from initial receipt in the yard to dismantling and disposal

Luncheon & Trade Show Saturday 11:30 – 1:30 pm

6:00 – 8:00 Dinner Banquet and Scholarship Auction (bring your donated items)
